AWESOME OBEDIENCE FOR DOG AND HANDLER

Petra Ford PT, CCRT

Co-owner of Aqua Dog
Rehabilitation, with Kristine Conway,
D.V.M.

Written articles for Clean Run,
Whole Dog Journal,
And Front and Finish magazines.

How to get the same performance in the ring that you have in training.

Petra graduated from UMDNJ School of Health Related Professions over 20 years ago with a degree in physical therapy. She attended the Canine Rehabilitation Institute in 2007 and is now a certified Canine Rehabilitation Therapist. Petra has built a systematic approach to dog training based, in part, on techniques imported from the world of elite human athletes.

Petra has trained and trialed her Labrador Retrievers in obedience, agility, field and nosework. Her black Labrador Retriever, Tyler, has the distinction of being the **2008 and 2009 National Obedience Champion** and First Runner Up in 2010. In 2012, Petra and Tyler became the **first American team to win the Obedience World Cup at Crufts** (they placed second in 2010). Petra's dogs have earned field titles (MH, QAA). Currently she is competing at the Master's Level in agility with Zaidan and Zeal has earned his OTCH in obedience. **Watch a video of Petra training:** <https://www.youtube.com/watch?v=AsJQt7Zm5gl>

Her goal is to teach handlers and their dogs what to do, how to do it, and the virtues of conditioning, with clarity, consistency and care, and empower dogs to do their best.

This hands-on, interactive puppy-to-utility seminar will cover:

- Develop smooth, precise, and animated heeling, polish fronts and finishes
- Importance of **fitness in preparation** for competition
- **Improving your dog's performance** using specific strengthening, hind end and body awareness exercises for halts, sit stays, fronts, finishes, left turns, drops, stand & jumping
- Importance of a **proper warm-up and cool down**
- **Polish the handler** with footwork and cues and selecting the right pace for you and your dog
- **Handler exercises to improve balance & body awareness**, which affect dog's set ups, heeling, pivots, fronts & finishes and significantly impact the transition from training to trialing
- And much more
